

Public App Approval Details - The Brain at Work Experiment

Application Information

Application Name: The Brain at Work Experiment

Emory Application Owner: Michael Treadway (MTTREAD)

Emory Application Technical Contact: Chelsea Leonard (CVLEONA)

Application Support Model:

Application Administration Model:

Application Description: This mobile application, currently available for iOS devices only, will be used in IRB-approved research projects by Dr. Michael Treadway and his collaborators. The mobile app will be downloaded on a study participant's device after study consent is completed. After an in-person study visit, participants will be asked to continue assessments in their daily life using the mobile application. These assessments will include short questionnaires and behavioral tasks. No PHI is collected through the mobile app. For all data collected, the app communicates with the server that contains the data through an encrypted channel. This connection is secured using an SSL certificate. At the time the mobile app is downloaded on to a study participant's device, that person will be given a unique ID and password to log in to the app to complete daily assessments.
