

IT Architecture Review Process

In 2009 the OIT Architecture group prepared a proposal for an IT architecture review process and example templates. These are available on the IT Architecture wiki at <http://wiki.service.emory.edu:8000/display/cita/ART+Charge>.

The proposed IT architecture review templates are available at <http://wiki.service.emory.edu:8000/display/cita/IT+Architecture+Project+Review+Template> and <http://wiki.service.emory.edu:8000/display/cita/IT+Architecture+RFP+Review+Template>. The Architecture Review Team is working to customize and adapt these templates for Emory.
