

Public App Approval Details - Surgical Anatomy of the Male Pelvis

Application Information

Application Name: Surgical Anatomy of the Male Pelvis

Application Owner: Andy Matlock (JAMATLO)

Application Technical Contact: Andy Matlock (JAMATLO)

Application Description: The Anatomy of the Male Pelvis translates the depiction of the complex organization of the male pelvis into a concise, visually engaging, easy-to-use 3D models for teaching, training, and consulting. Based on a simple selection menu, users can navigate throughout the entire network of structures that comprise the male pelvic region, including the bony pelvis, pelvic floor, musculature, vessels, and connective tissue, and view their relationship to such organs as the bladder, reproductive organs, colon, and rectum. Structures can be rotated in 3D, made transparent or invisible, and viewed at different magnifications. The app also allows the arteries and nerves that traverse the pelvis to be clicked to trigger identifying text.
