

Public App Approval Details - HealthLife

If you find anything in error, please contact Stephanie Rodgers (srodge5@emory.edu).

Application Information

Application Name: HealthLife

Application Owner: Shannon Caul , Ameenay Khan (?)

Application Technical Contact:

Application Support Model:

Application Administration Model:

Application Description:

HealthLife helps individuals and families stay informed, educated and take a more active role in their health.

Through the HealthLife app, you have real-time and easy access to your health care organization's online portal. This portal shows your latest health care information and provides services needed to plan, understand and engage in your care.

You must first be granted access by your health care organization to use their online portal. Once you have an account, simply sign into the HealthLife app with your Cerner Health username and password. If you have access to portals from multiple health care organizations, you can view all participating portals through the app.

Each participating organization's portal is unique but most portals allow you to connect with your care team by:

- Securely messaging your provider
- Scheduling and managing upcoming appointments
- Accessing medical information including allergies, laboratory results, health issues, immunizations, medications and other health documents
