

# Apple App Store Submission - HealthMindr

When you are ready to submit to the App Store there are artifacts that must accompany the submission to Apple. The review process itself takes a variable amount of time and can range from anywhere from two to four weeks for first time app submissions. Please be sure to account for this time period in your project plan.

Note that you can add an attachment by using Add=>Attachment or by just dragging a file to the page. Put the image files into folders and zip into a single file works the best. To review the attached files, using Add=>Attachment.

Number	Required Information	Response
1	Attach a signed ipa file that has been packaged and tested so that we can re-sign with the Emory University Certificate.	Softura Response:  We don't do this anymore. We have an Emory Apple developer account. We submit the build and Emory IT publishes to test flight. Our developer is currently working with Tom to publish to the App Store. We will send the Android binary to Emory IT and they will submit to Google Play.
2a	App Name - This is the name as it will appear in the App Store - Required (30 chars max)	HealthMindr
2b	App Subtitle - Optional (30 chars max)	-----
2c	(optional 170 chars mx) Promotional text lets you inform your App Store visitors of any current app features without requiring an updated submission. This text will appear above your description on the App Store for customers with devices running iOS 11 or later, and macOS 10.13 or later.	-----
2d	(required) A description of your app, detailing features and functionality.	HealthMindr is an app designed to promote healthy behaviors to men who have sex with men through information, periodic screenings, testing and resource locator, and product ordering.
