

On-boarding for Preferred Emory Mobile App Consultants

1. **Emory Sponsored Account:** in order to access Emory resources, you have to have a sponsored account. Send email to george.wang@emory.edu with email address, first and last name, phone, date of birth. With a sponsored account, you will get a netid with initial password. When you set your password, make sure you set up security questions. Otherwise you would have to call in (Emory's IT help line is 404-727-7777) to reset a password.
2. **Emory wiki access:** With a sponsored account, you will automatically have access to Emory's wiki page at <https://wiki.service.emory.edu>. Your netid will only be searchable from wiki after you first log in.
3. **VPN access:** After you got a sponsored account, you can apply for VPN access by calling 404-727-7777 between 7 AM and 6 PM (M-F)
4. **Emory Subversion repository access:** Please send email to george.wang@emory.edu
5. **Access to Emory Web Service:** here is a sample run using the free web service tool SoapUI:

The screenshot displays the SoapUI interface with a project tree on the left and a main workspace showing a SOAP request and response. The request is a `DirectoryPersonQueryRequest` for 'George Wang'. The response is a `DirectoryPersonReply` containing detailed information about George Wang, including his email address, phone number, and title.

Request 1
