Total Apps Tracked (93)

This is the total number of apps presently tracked by the Emory Mobile App Distribution process and includes apps bound for internal and public distribution as well as apps in the concept stage and recently retired apps. Note that this is one less than the sum of the categories because one of the apps appears on both the Internally Distributed and Under Review for Public Distribution lists.

In Concept, Cost Estimation, Design, or Development (11)

Note: Not all apps in design, cost estimation, and development are known by Emory IT. Some apps only come to the attention of central IT as part of the review and distribution process.

1. [Surgical Safety Checklist](#) (starting use case documentation---no analysis, design, or cost materials available yet)
2. [Emory Healthcare Provider App](#) (use cases documented, preparing cost estimate)
3. [Emory Login Demo](#) (in development)
4. [Pediatric Blood Pressure](#) (concept and cost estimation complete, no funding yet)
5. [Catatonia App](#) (concept and cost estimation complete, no funding yet)
6. Brain Health Deep Brain Stimulation Tracker App for Patients
7. Dermatology Patient App
8. (Georgia Tech) Smart medication list app
9. Transfusion Reaction Classifier Clinician App
10. Ortho Patient-reported Outcomes app
11. DeepAISE App

Name	Last Update
Surgical Safety Checklist	2017-03-08
Emory Healthcare Provider App	2017-01-21
Emory Login Demo	2017-02-08
Pediatric Blood Pressure	2015-11-12
Catatonia App	2017-01-18

Under Review for Public Distribution (7)

1. [CarlosVR](#) (Emory App Catalog for Android & iOS)
2. [SMARTDM2](#) (Emory App Catalog for iOS & Android)
3. [Emory Eagles](#) (iOS & Android)
4. [DBS CareTrek](#) (iOS & Android)
5. [Emory CT Directory](#) (iOS & Android)
6. [Transpire](#) (iOS & Android)
7. [Oxford College of Emory](#) (iOS & Android)

*SMARTDM2 also distributed internally

Publicly Distributed Apps - Reviewed and Approved (23)

Note: All publicly distributed Emory apps are also distributed internally at various points in their lifecycle. Publicly distributed production apps in public marketplaces are ultimately listed at links in the internal Emory Mobile App Catalog. These listings of public and internal apps are distinct so as to communicate clearly which apps are bound for public and internal users. Click on the marketplace name for a link to each app's official listing in the marketplace.

1. Emory AWAKE (Google Play & Apple App Store)
2. Surgical Anatomy of the Liver (Google Play & Apple App Store)
3. Emory Liver Transplant (Google Play & Apple App Store)

14. P@H (aka. PrEP@Home) (Google Play & Apple App Store)
15. WinshipMD (Google Play & Apple App Store)
16. BBA Go (Emory App Catalog for Android & iOS)
17. Emory AWAIT (iOS & Android)
18. iPARTICIP8 / SMART (Android & iOS)
19. HealthMindr (Android & iOS)
20. HealthLife (iOS and Android) (Published by Cerner, Not Emory)
21. Atlanta History Center (iOS & Google Play)
22. Know@Home (iOS & Google Play)

Unreviewed, Unapproved, Publicly Distributed Apps (16)

These apps have been found in public marketplaces and bear prominent references to Emory University or Emory Healthcare. These may be apps that pre-date Emory's 2014 review policies or apps that have been published without proper review. All of these apps should be reviewed, distributed by Emory, and migrated to the Publicly Distributed Apps category or removed from public marketplaces.

For more details see the [Unreviewed, Unapproved, Publicly Distributed Apps](#) page

Internally Distributed Apps (11)

1. Emory App Catalog (for iOS & Android, download at <https://mobile.apps.emory.edu> or <https://mobile.apps.emoryhealthcare.org>, see the [start page](#) for instructions)
2. PMATT (Dev) (Emory App Catalog for Android)
3. Codes (Emory App Catalog for iOS & Android)
4. 3D Liver (Emory App Catalog for iOS)
5. MTP (Emory App Catalog for iOS)
6. Knowledge Builder App (limited Emory - Emory App Catalog for iOS)
7. Carlos Mobile (limited Emory - Emory App Catalog for iOS)
8. e-Vantage (QA limited Emory - Emory App Catalog for iOS & Android)
9. Safety Reporting (DEV limited Emory - Emory App Catalog for iOS)
10. ComeClean (Emory App Catalog for iOS)
11. SMARTDM2 (Emory App Catalog for iOS & Android) - proposed for external distribution as well*

*SMARTDM2 also under review for public distribution

Unreviewed Apps (7)

These apps started the review process (or were preparing to start the review process) but are no longer planned for release.

1. INFORMED (under development)
2. SUGARx (Emory App Catalog for iOS)
3. AMoSS (Emory App Catalog for Android)
4. CHAMPS Image Application (Emory App Catalog for Android)
5. Med Buddy (Emory App Catalog for Android & iOS)
6. Oxford Meeting Room App (In development for internal distribution only)
7. SNOT (under development)

Retired, Unreviewed, or Unapproved Apps (18)

These apps are no longer currently on the marketplaces. This includes apps that started development but were never published, apps that were published and since retired, and apps that were found in public marketplaces bearing prominent references to Emory University or Emory Healthcare, and either pre-dated or were published without completing the appropriate review process.

1. Emory Bubble (Google Play & Apple App Store, Campus Bubble App Store Account)
2. Emory HF Study (Unreleased), (Google Play, Michael Daugherty App Store Account)
3. Simon Web Emory/Grady Paging (Apple App Store) (Evan Schoenberg App Store Account)
4. EAH Smyrna Connect (Apple App Store & Google Play, Adventist Health System App Store Account)

5. [Emory Health Magazines \(Apple App Store\)](#) - Retired from marketplaces Feb 2019
6. [Biocatalogue Mobile \(Apple App Store\)](#) - Removed from sale by Apple because no update in time period
7. [Theater Emory](#) - vendor wanted access to App Store account and was denied.
8. [Phenylketonuria \(PKU\) Mobile and Web Apps](#) (concept, cost, and design complete, no funding yet) - most likely dead project no updates since 2011
9. Heart Failure Education & Fluid Tracking App (no analysis, design, or cost materials available yet) - no other details available
10. [SCIP for Surgery](#) - Disabled per the application owner - not worth updating from 32 to 64-bit (Emory App Catalog for iOS)
11. [Post Tx Meds](#) - Disabled per the application owner - not worth updating from 32 to 64-bit (Emory App Catalog for iOS)
12. [WebEase](#) - Disabled for now. Needs updating to 64-bit architecture (limited Emory - Emory App Catalog for iOS)(Removed from Apple App Store because of inactivity)
13. [EHMC](#) - Disabled for 1 year (32-bit architecture no longer supported... needs updating) (Emory App Catalog for iOS)
14. [Emory Mobile \(Google Play & Apple App Store\)](#) - Removed on June 1, 2019
15. [Exheale](#) (iOS & Android) - Original developer abandoned project. No support or funding to continue, though the owner still has interest in continuing.
16. [Emory New Students](#) (formerly Towards Emory) (Project cancelled)
